Happy New Year!

Valentine's Day will be here before you know it, get those special menus ready with some of Broadleaf's great selections. Take those traditional picks to the next level, upgrade the Filet and make it a *Wagyu Filet* or even a *Bison Filet*.

Don't have time or room to make your own glace or stocks? Leaving pots on overnight can dig into your utilities expenses as well as create a potential fire hazard...health departments frown on it, and frankly it's just a hassle. *We've got your solution.* Our expertly made grass fed veal, beef & lamb glaces are amazing...and our mussel and lobster stock is out of this world! They are smartly sized to maximize kitchen space, provide consistent taste and help save on labor & utilities. See page 15 *Stock Shop Co.*

Kurobuta Pork

This outrageously juicy pork breed originated in Berkshire England. In the 19th century England gave a shipment of these hogs as a gift to Japanese diplomats and called them "Kurobuta" meaning black pig for their black coat.
